## Activity Overview

- Leadership Stories is an entertaining learning tool
- Players cultivate their knowledge and practice their leadership skills by overcoming several business scenarios (stories)
- Teams make their journey along with a Game Character assigned to them at the start of the game
- There are up to 12 different Leadership challenges that participants will have to face as Leaders during the game
- They aim to make the best decision in every 'story' and gain points
- They will have to think about each story separately, visualize the context, read both the lines and behind the lines, use their experience to weigh the pros and cons and take the most appropriate action
