## Activity Overview

- Participants watch a video outlining the game scenario
- A young man unwittingly buys a suspicious VR headset and is now trapped inside a virtual world!
- The team's mission is to go back and forth between the virtual, and real worlds, solve clues and rescue the teenager
- One team member at a time wears the VR headset to describe the virtual world, while the teammates in the real world have the solutions, which open the doors of different rooms
- The game's objective is to create competition between teams, with a main screen showcasing the evolution of multiple teams in one game session
